

30th April 2007

Provision of clear bags for the recycling of plastic water containers

Galway City Council has commenced (Monday 30th April) the distribution of free clear bags to facilitate the recycling of empty plastic water containers. Two bags will be provided per green bin and will be distributed in conjunction with the green bin service. The full clear bags will then be collected, free of charge, with your green bin, as part of Galway City Council's refuse collection service. Plastic bottles should be squashed to reduce bulk before being placed in the green bin or in the clear bags. In addition, a container will be provided at the City Council depot at Liosbaun Industrial Estate from 9.00 am to 1.00 pm on Saturdays for collection of plastic bottles for recycling.
