APPENDIX A

Comhairle Cathrach na Gaillimhe
Galway City Council

BRANDING AND SIGNAGE POLICY

Introduction

The objective of this policy is “provide a framework for a coherent visual branding of the City, its attractions, festivals and international connections to advise residents and visitors”.

It is intended that this policy will be implemented by the following departments of the Council, all of whom have responsibilities for dealing with advertising signs on public places. The statutory basis for this policy is outlined in the following legislation:-

- Roads Department (under the Roads Act 1993 as amended)
- Planning Department (under the Planning & Development Acts)
- Environment Department (under the Litter Pollution Act 1997-2003)

This policy will be implemented in consultation with other relevant departments of the Council as appropriate.

There are three types of signage which could be made available for branding/event promotion currently in Galway City and it has been established that there is a need for a clear, consistent approach required for the usage of these signs.

Advertising structures, where required, shall be sized and placed in a manner, which is unobtrusive. Advertising structures and signage shall be minimised, of a high standard, co-ordinated in design and appropriately scaled and located (City Development Plan 2011-2017).

This policy will seek to control and optimise the use of:-

- ▶ Obsolete National Development Plan (NDP) signage
- ▶ Road Safety Authority (RSA) signage
- ▶ Information Plinths

NDP Signs (not for use by third parties)

It is proposed to brand the City and City Council in a positive manner, highlighting significant civic features such as twinning, with other link/twin cities, e.g. Bradford, Lorient, Chicago, Aalborg and Seattle as well as permanent designations for e.g. "UNESCO City of Film".

RSA Signs (16 No.)

RSA Signs will continue to be made available on an annual basis to cultural and sporting events of scale and quality, which attract significant numbers of visitors to the City.

Signage will be in place for a period one month including the event, and will be removed no later than seven (7) days after the end of the event.

For the remainder of the year, the RSA signs will be used to promote Road Safety and a Litter Free City.

- > Applications from the organisers of the festivals must be received one month prior to the signs being erected.
- > Layout will be clear and simple with one strong central image promoting the Festival only and will not contain reference to the sponsors of the event either explicitly or implicitly.
- > Logos permitted are Galway City Council and Festival logo.
- > A combination of words and numbers will be kept to a maximum of ten.
- > All graphic designs will be submitted with the application and will be subject to revision as required by the City Council.
- > In lieu of payment for use of the signs, boards will include Galway City Council approved logo. Galway City Council's logo will be made available in digital graphic format.
- > All costs associated with the erection and removal of the signage is borne by the event promoter.
- > All applications must be accompanied by details of the promoter including appropriate details such as insurance, method statements etc.
- > A cash deposit will be paid in advance of the erection of any sign. The deposit will be refunded after the signage is removed within seven (7) days at the end of the event.
- > All sixteen (16) RSA signs must be used unless Galway City Council require them for other purposes.

Information Plinths

Information Plinths are tall rectangular signs which Galway City Council have permitted to be erected on certain public lighting poles. They are three sided, supported on a steel frame of sound construction and designed to limit damage to the public lighting poles. A photographic example of these plinths can be seen

in the appendix. They are dressed in a durable metallic/plastic compound. Under no circumstances will coriboard or similar weak materials be accepted for use on these plinths. The purpose of these plinths is to display information to pedestrians (not motorists).

Taking into account the existence of Archaeological Conservation areas in the City centre area, permission for the erection of Information Plinths at a maximum of ten (10) pre-approved locations may be allowed in the City centre and a maximum of three (3) in Salthill. Alternative locations will be considered upon application but will depend on factors including, but not limited to path width and visibility to pedestrian areas.

Plinths will be in place for a maximum of two (2) weeks at a cost of €31.50 per plinth in accordance with Section 254 of the Planning and Development Act 2000, as amended.

The promotion of festivals, culture, arts, sporting events, events organised by charities and services taking place in the City of general interest to the public is the primary use of advertising on plinths. The plinths can be attractive and colourful. See *Appendix* for examples.

Applicants should allow a minimum of four (4) weeks before the required booking date for approval, production and installation of plinths.

The City Council is the sole owner of the advertisement space. The City Council may make space available for promoting activities and attractions, subject to the following terms and conditions.

- > Galway City Council approved logo will be included. Galway City Council's logo will be made available in digital graphic format.
- > The direct and indirect promotion of private and commercial corporations, businesses and organisations and related products and services shall not be permitted on the plinth.
- > Political campaigns either within Ireland or internationally shall not be permitted.
- > Applications from the organisers of the above festivals must be received one month prior to the signs being erected.
- > Logos permitted are the Galway City Council and the festival or event logos (excluding commercial or title sponsors).
- > All graphic designs will be submitted with the application and will be subject to revision as required by the City Council.
- > All costs associated with the erection and removal of the signage is borne by the event promoter.
- > All applications must be accompanied by details of the promoter including appropriate details such as insurance, method statements etc.

Copyright of Information Plinth artwork/production is the responsibility of the client. Galway City Council takes no responsibility for any copyright issues.

Artwork Criteria

All artwork for plinths must be approved in advance, by the Planning and Transportation Directorate, Galway City Council, and comply with the required dimensions.

Booking applications will be dealt with on a first-come first-served basis.

The granting of a licence at any location will not be deemed to constitute a precedent.

Unauthorised signage on the public road may be removed by Galway City Council under the Roads Act 1993 (Section 72). Unauthorised signage on private property may be pursued under Planning Enforcement.

The Planning & Development (No. 2) Regulations 2002 confirm the fees as follows:

- A licence for a Finger Post sign, not exceeding one meter in length and which is a directional sign, currently costs €50. An annual licence fee of €50 also applies.
- A licence for any other sign currently costs €630 on application. This is an annual fee.

Where Galway City Council considers that there is sufficient public benefit in allowing a Finger Post sign which indicates a non-profit charitable, cultural, sporting or community facility, the fee may be waived, and a written agreement entered into with the representatives of the facility.

What happens if I erect a permanent sign on public land without a licence?

Unauthorised advertising signs/structures will be dealt with under the enforcement provisions of the Planning Acts and/or the Roads Acts.. The person, company or business responsible for erecting unauthorised signs on public

property shall be subject to enforcement proceedings, and shall be directed to remove the sign within 7 days. Failure to comply with this direction will result in the sign(s) being removed. Cost for removal of signs may be recovered by Galway City Council ([see Appendix 2: Recovery of Costs, Unpaid Fines and Schedule of Charges](#)).

What happens if I already have a permanent sign on public land without a licence?

You must apply for a licence to keep the sign in place. The Council will write to all parties who already have permanent signs in place but who do not have a licence, and will advise them that the sign(s) will be removed, unless a licence application has been submitted within one month of the date of the letter. If a licence application is submitted, and a licence is not granted, the sign must be removed.

APPENDIX 1

LICENCING PRINCIPLES AND CONDITIONS

The following licencing principles and conditions will be taken into account when considering applications for licences for erecting signs on a public place.

Licencing Principles

The following principles will be taken into account when considering applications for licences for erecting signs on a public place.

(a) Signs will only be considered where an advertising 'need' is identified. In this context the term "need" relates to the requirements of the travelling public, not the desire of the commercial operators to advertise as widely as possible. Each such need will be assessed on its merits.

(b) In rural areas signs will generally be only licensed where premises are located away from main traffic routes.

(c) Advertising Signs for Commercial premises/events shall not be permitted on National roads and shall be severely restricted on Regional and Local Roads. If premises are located along a National or Regional road they should not have a sign on the road. A sign on their property is adequate.

(d) In areas where consideration is given to the erection of fingerpost signs for local advertising they will only be permitted where they do not give rise to confusion for road users or endanger traffic safety. For each commercial operation any favourable consideration will generally only extend to a maximum of one sign located at the road junctions either side of the premises. Generally, no finger post signs for individual commercial businesses on junction with a National Road.

(e) The more effective location of tourist signs will be encouraged in such a way as to help the user identify tourist attractions of national or regional importance, yet does not lead to visual clutter, dis-amenity or traffic hazard.

(f) Provision of signs will not be permitted where the location of such structures compete with traffic information signs, sight lines or may distract attention at a junction so as to create a potential traffic hazard.

(g) If more than one industry or business is located in the same area, a general signpost indicating the direction of the industrial location may be considered. No trade name or other identification mark will be allowed.

APPENDIX 1 (Contd.)

(h) So as to avoid clutter and intrusion, in general no more than five advertising finger post signs on any one pole will be permitted. A second signpost for the same premises will not be considered within 250 meters of such permitted sign. (In urban areas, the 250 metres may be reduced).

(i) In the case of Accommodation signs, one fingerpost sign at the junction nearest the premises may be permitted for hotels, guesthouses and other similar accommodation.

j) There shall be a general presumption against the approval of roads related advertising signs for individual industrial, commercial and other enterprises. Consideration may be given to erection of signs using generic symbols indicating the location (but not the name) of tourist attractions at suitable locations on National Roads. These signs would indicate directions of attractions such as Sports Centres, Parking, Public Toilets, Fuel and Accommodation, etc. Notwithstanding the above, this Council reserves the right to deal with each application on its merits or on an individual basis. Nothing in this policy should prevent anyone from applying for a licence or planning permission for such advertising signs.

Licencing Conditions

In the event of the Local Authority granting approval for the erection of a sign, the following conditions will apply:

All signs shall be manufactured and created in accordance with the standards in Department of Environment, Traffic Signs Manual or similar current standards specified for the construction of traffic signs.

The owner of the business being advertised may erect signs and poles if valid insurances are submitted and accepted by the Council. The location and dimensions/details of the sign must be agreed in advance. The owner of the business is liable for all costs/expenses incurred. Signs for more than one premises may be erected on the same pole.

The owner of the business to which the signs relate shall be responsible for the cost of routine maintenance and replacement of signs should they become damaged or need renewal in the case of normal wear and tear.

The Council shall retain the right to remove a sign or alter its location at any time.

The owner of all existing signs will, where appropriate, be required to obtain a licence under the Planning and Development Act 2000 and subsequent regulations. Where authorised signs not conforming to the proposed criteria are already in place, road authorities may consider allowing the existing signs to

remain. All new and replacement signs shall comply with the requirements of this policy.

The granting of a licence at any location will not be deemed to constitute a precedent.

APPENDIX 2

RECOVERY OF COSTS, UNPAID FINES AND SCHEDULE OF CHARGES

Recovery of Costs:

The Roads Act 1993 provides for the recovery of the costs by the City Council from the sign owner for removing and storing unauthorised sign, cars etc. as detailed in Section 71(6) which states:

“a sign, caravan, vehicle or other structure or thing removed and stored under this section shall be given to a person claiming it if, but only if, he makes a declaration in writing that he is the owner of the sign, caravan, vehicle or other structure or thing or is authorised by its owner to claim it and, at the discretion of the road authority or the (Garda) Commissioner, pays the amount of the expenditure reasonably incurred in removing and storing it”

It is the policy of Galway City Council that the Local Authority will in all but exceptional cases, seek the recovery of its costs.

Unpaid Fines:

It is the Local Authority's policy that all unpaid fines issued will be prosecuted through the Courts.

Schedule of Costs:

This schedule has been developed on the basis that there will be a set charge for removing each type of sign plus a daily storage charge. It is proposed to use these set charges instead of logging and tracking the actual specific costs for each sign. This will simplify the administration and reduce the time, resources and cost of implementing this policy. It is proposed that these charges will increase by 5% each year starting on the first day of January unless otherwise decided by the Council.

In special circumstances where a particular sign does not fit any of the categories on the schedule of charges or where the actual costs incurred in removing and storing the sign are significantly more than the charge listed, the Council may charge the actual cost involved. In such a case, the Council will provide the necessary backup supporting the actual charge.
